# Agenda
## GPAI SUMMIT 2023: 12-14 December 2023, New Delhi

| Day 1 - Tuesday, December 12 | | |
|---|---|---|
| **Start** | **Session Description** | |
| 09:30 - 11:00 | **GPAI Session (@ Room No. 7): Responsible AI Working Group** | |
| 09:30 - 11:30 | **Side Event 1 (@ Room No. 19):**<br><br>**Applications of AI in Priority Sectors** | The session will focus on challenges and opportunities in adoption of AI by industry towards enhancing competitiveness, market potential of AI and its uptake across industries.<br><br>Objectives of the session are:<br><br>• Establish comprehensive understanding of AI's current penetration across essential sectors like education, security, finance, healthcare, etc.<br>• Highlight the successful case studies of AI adoption in industry and its value growth across the globe.<br><br>Discuss guidelines that delve into the rights attached to co-generated data, ensuring they uphold the rights of both individuals and groups. |
| 09:30 - 13:30 | **Side Event 2 (@ Auditorium 1):**<br><br>**Research Symposium** | Under the theme of "Advancing Responsible AI in Public Sector Applications", the session will provide a platform for AI researchers and developers to collaborate and present actionable research on Responsible AI in front of a global audience at the Summit. The session will also highlight the challenges in implementing Responsible AI principles. Outcome from the session would be an edited volume, intended to serve as a vital resource for policymakers, researchers, and AI developers to access and appraise actionable best practices and innovative strategies to promote Responsible AI from across the globe. |
| 10:00 - 11:30 | **Side Event 3 (@ Room No. 6):**<br><br>**AI & Global Health – Role of AI in advancing Healthcare** | The session seeks to explore the growing use of Artificial Intelligence enabled systems in the field of healthcare, through a panel discussion. Discussion will span topics of role of AI in Universal Health Coverage, workflow in healthcare operations, diagnostics, and drug discovery, AI-assistance for healthcare professionals, ethical aspects of deploying AI in healthcare, challenges faced by countries, and public-private synergies. |
| 11:00 - 12:30 | **Side Event 4 (@ Room No. 7):**<br><br>**Building Scalable Large Language Models (LLMs)** | The session is about learning and sharing knowledge on Large Language Models (LLMs) and Natural Language Processing (NLP). The aim is to deepen understanding through research and industry insights while encouraging networking and professional growth in the LLM and NLP sectors. It will cover various aspects like multilingual support and bias reduction, with discussions on ethical use and the creation of specific models for different countries. |
| | **GPAI Experts Side Event 1 (@ Room No. 15): The Global AI Production Networks** | |
| | **GPAI Experts Side Event 2 (@ Room No. 16): Scaling RAI Solutions: Challenges and Opportunities** | |

| | | |
|---|---|---|
| 11:30 - 13:30 | **Side Event 5 (@ Room No. 6): (By Invitation Only)**<br><br><br>**AI Safety Summit: Follow Up** | The session will provide an overview of the outcomes of the UK Safety Summit at Bletchley Park. |
| | **Side Event 6 (@ Room No. 19):**<br><br>**Collaborative AI for Global Partnership (CAIGP) - Global Cooperation for Equitable AI** | The session aims to catalyze discourse around the need to join efforts across countries and organizations towards making the AI innovation ecosystem more inclusive.<br>The objectives of the event include:<br><br>• Identifying how to collectively align and harmonize efforts towards building the future of AI through a multistakeholder approach towards AI research and innovation.<br>• Exploring the role of large industry players, including AI compute providers in driving inclusivity across the AI ecosystem.<br><br>Discussing how governments, through existing multilateral initiatives such as the GPAI, can pool resources necessary for AI innovation. |
| 12:30 - 13:30 | **Side Event 7 (@ Room No. 7): Fireside Chat of Hon. Minister with Industry Leaders and invited Ministers** | |
| **Lunch: 13:30 - 15:00** | | |
| 17.00 - 18:30 | **Inaugural Session by Hon'ble Prime Minister of India (@ Plenary Hall)** | |
| 18:30 - 21:30 | **GPAI Session (@ Summit Room): Executive Council Meeting**<br><br>**(By Invitation Only)** | |
| **Cultural Event followed by Dinner (By Invitation only): 19:00 - 21:30** | | |

| Day 2 - Wednesday, December 13 | | |
|---|---|---|
| **Start** | **Session Description** | |
| 09:30 - 11:30 | **Side Event 8 (@ Room No. 7):**<br><br>**AI Education and Skilling: Bridging the Talent Gap** | The session will focus on multifaceted implications of AI and dimensions such as impact on innovation, SME adoption and commercial practices between businesses. Identify mechanisms to cultivate strategic partnerships between businesses in the AI value chain to explore solutions for future proofing trade and commerce, commercial best-practices, tailored to cater both global and local needs. |
| | **Side Event 9 (@ Room No. 19):**<br><br>**International AI Regulations: Catalyzing Innovation while ensuring Safety, Trust and Accountability** | The objective of the session is to distill insights that can contribute to fostering a harmonized AI landscape characterized by growth, responsibility, and shared aspirations. The key objectives will include:<br><br>• Enhancing international collaboration among GPAI nations to share best-practices, insights, and strategies for AI governance and regulations.<br>• Discussing the advantages and challenges of both sector-specific (sectoral) and overarching (horizontal) AI governance.<br><br>Facilitating the development of multi-stakeholder governance framework that synergizes efforts across governments, industries, civil society, and academia to ensure safety, trust & accountability. |
| | **Side Event 10 (@Auditorium 1):**<br><br>**Pitch Fest** | The AI Pitch Fest is conceptualized to harness the platform provided by the Annual GPAI Summit towards promoting financial sustainability and support for GPAI's most impactful projects, advancing the idea of Safe and Secure AI for all. The Pitch Fest will provide an opportunity for GPAI experts to present their ongoing projects to prominent donor organizations with a view to exploring opportunities for collaboration as well as support. The event will act as a bridge between GPAI projects and organizations actively looking to support impactful Responsible AI work. |
| 09:30 - 10:30 | **GPAI Experts Side Event 3 (@ Room No. 15): AI4SMEs Portal: Empowering AI for SMEs & Employing the AI Maturity Index (AIMIND) Framework** | |
| 09:30 - 11:00 | **GPAI Experts Side Event 4 (@ Room No. 16): GenAI X Workplace: The Big Unknown** | |
| 10:00 - 11:00 | **Side Event 11 (@ Room No. 6): Fireside Chat of Hon. Minister with Industry Leaders and invited Ministers** | |
| 10:30 - 11:30 | **GPAI Experts Side Event 5 (@ Room No. 15): Data Spaces: From Concept to Territorial Implementation** | |

| 11:30 - 13:30 | **Side Event 12 (@ Room No. 6):**<br><br>**Mitigating social risks for a safe and resilient society** | • As the world approaches an AI-driven future, ongoing discussions about Responsible AI are crucial. In this context, the session has the following objectives:<br>• Develop initial guidance on the safe, secure and responsible use of generative AI;<br>• Address global imperatives while also addressing region-specific challenges, especially those faced by developing nations;<br>• Prioritize development and endorsement of technical standards that ensure responsible and effective AI utilization. |
|---|---|---|
| | **Side Event 13 (@Room No. 7):**<br><br>**Productization and Scaling-up of AI Solutions** | The session will focus on multifaceted implications of AI and dimensions such as impact on innovation, SME adoption and commercial practices between businesses. Identify mechanisms to cultivate strategic partnerships between businesses in the AI value chain to explore solutions for future proofing trade and commerce, commercial best-practices, tailored to cater both global and local needs. |
| | **Side Event 14 (@Room No. 19):**<br><br>**Harnessing the power of Data Responsibly** | The session will discuss the importance of ensuring data used in AI models is reliable and secure, aligning with organizational values to mitigate bias and risks. It will also touch upon AI ethics and address concerns about personal data handling, social media censorship, and demonstrating the insufficiency of existing laws through real-world examples. |
| | **GPAI Session (@ Summit Room): Annual Multistakeholder Expert Group (MEG) Plenary including look back on GPAI's first Innovation Workshop**<br><br>**(By Invitation Only)** | |
| **Lunch: 13:30-15:00** | | |
| 15:00 - 18:00 | **GPAI Session (@ Summit Room): Ministerial Council**<br><br>**(By Invitation Only)** | |
| 15:00 - 16:30 | **Side Event 15 (@Room No. 7):**<br><br>**AI and Governance: The next Techade of DPIs** | The session will bring together key stakeholders to discuss approaches to building inclusive and advanced DPIs over the next 10 years.<br>The objectives of the session include:<br>• Recognize the pivotal role of international collaboration in AI democratization<br>• Address challenges related to data ownership, governance, and the concomitant opportunities for development and adoption of DPI tools for accelerating AI adoption and development.<br>• Discussing the role of technological advances, particularly in AI/ML technologies, in shaping the next generation of Digital Public Infrastructure.<br>Discussing successful case studies/initial efforts towards integrating AI in existing DPIs. |
| 15:00 - 17:00 | **Side Event 16 (@Room No. 6):** | The objective of the session is to provide an overview of the latest trends and developments in AI research, showcase a diverse range |

| | Applied AI Research and Indigenous Innovation | of AI applications, and discuss the social and ethical implications of AI. The session also aims to encourage dialogue and collaboration between AI researchers and practitioners. |
|---|---|---|
| 16:30 - 18:00 | **Side Event 17 (@Room No. 7):**<br><br>**Neurotechnologies and AI** | The session will facilitate a Roundtable/Panel discussion on UNESCO report on AI and neurotechnology. The session will bring together experts to engage in a meaningful dialogue about the implications, findings, and recommendations outlined in the report. |
| 17:00 - 18:30 | **Side Event 18 (@Room No. 19):**<br><br>**AI and Sustainable Agriculture: Towards Global Food Security** | The session aims to identify opportunities for leveraging AI innovations for sustainable agriculture in the Global South by discussing case studies and examples of successful AI deployment models. It will also examine the challenges of deploying AI for sustainable agriculture and explore policy issues that are critical to catalysing the use of AI innovation for sustainable agriculture |
| 17:00 - 18:00 | | **GPAI Experts Side Event 6 (@ Room No. 15): Day of AI India** |
| | | **GPAI Experts Side Event 7 (@ Room No. 16): AI's Transformational Path: India and Africa Unite for Sustainable Development** |
| 18:00 - 19:30 | **Side Event 19 (@Room No. 7):**<br><br>**Future of Global Governance on AI: Perspectives from UN High-Level Advisory Body on AI** | This side event aims to convene various members of the High-Level Advisory body on AI to deliberate on the future of global cooperation and governance of AI and how various existing initiatives may converge towards ensuring a unified approach towards advancing Trustworthy AI. |
| | | **GPAI Session (@Room No. 6): Future of Work Working Group** |
| **Cultural Event followed by Dinner (By Invitation only): 19:00 - 21:30** | | |

| Day 3 - Thursday, December 14 | | |
|---|---|---|
| **Start** | **Session Description** | |
| 9:30 - 10:30 | **GPAI Experts Side Event 8 (@ Room No. 16): Making AI Multilateralism Work – the path ahead in 2024 and beyond** | |
| 10:30 - 12:00 | **Side Event 20 (@Room No. 7:**<br><br>**AI for Climate Action: Accelerating Sustainable Solutions** | The session will focus on building localized knowledge about the opportunities, challenges, and risks of the intersection of AI and climate change that resonates with the priorities and concerns of countries in the Global South.<br><br>The discussion will leverage the collective expertise to add value to GPAI deliberations and open the forum to a geographically and professionally diverse group of experts. |
| | **GPAI Session (@Room No. 6): Data Governance Working Group** | |
| 10:30 - 12:30 | **Side Event 21 (@Room No. 19):**<br><br>**Generative AI: Issues & Challenges** | This session will give a broad overview of Generative AI and its potential to revolutionize various sectors. The session will also address several concerns with this technology such as ethical deployment, disinformation, privacy concerns, data governance, and potential biases. |
| 10:30 - 13:30 | **Side Event 22 (@Auditorium 1):**<br><br>**AI Gamechangers Award** | This prestigious event will recognize and award AI entrepreneurs and innovators from diverse backgrounds to highlight their innovative AI solutions, furthering the technological frontier and GPAI.<br><br>Selected startups will pitch to a jury of AI experts and practitioners and the winners will be felicitated during the Summit. |
| 12:00 - 13:30 | **Side Event 23 (@Room No. 7):**<br><br>**AI and Intellectual Property: Protecting Innovation** | The session will focus on expanding the concepts mentioned in the IP Primer released by GPAI's Working Group on Innovation and Commercialization.<br><br>This session will address the IP protection of various constituents of AI systems, namely - Hardware, AI algorithms, Software in which Algorithm is embedded, Training Datasets and Outcome.<br><br>The session will also seek to identify avenues where current IP laws are silent or may require modification to address challenges of Generative AI. |
| | **GPAI Session (@Room No. 6): Innovation and Commercialization Working Group** | |
| **Lunch: 13:30-15:00** | | |
| 15:00 - 17:00 | **Side Event 24 (@Room No. 7):**<br><br>**Safe and Trustworthy AI: Adopting Robustness and Security in AI Systems** | The session will discuss various issues relating to safe, secure and trustworthy AI. The session seeks to identify key threats, challenges and opportunities that industry and governments face. It will bring together key stakeholders to share their ideas. |

| | | |
|---|---|---|
| | **Side Event 25 (@Room No. 19):**<br><br>**AI for All – Bridging the Global AI divide** | The session will focus on building localized knowledge about the opportunities, challenges, and risks of the intersection of AI and climate change that resonates with the priorities and concerns of countries in the Global South.<br><br>The discussion will leverage the collective expertise to add value to GPAI deliberations and open the forum to a geographically and professionally diverse group of experts.<br><br>Discuss creation of a global repository of open-source AI resources, ensuring affordable and inclusive technological responses to climate change. |
| | **GPAI Session (@Summit Room): Steering Committee Meeting**<br><br>**(By Invitation Only)** | |
| 15:00 - 16:00 | **Side Event 26 (@ Room No. 6): Fireside Chat of Hon. Minister with Industry Leaders and invited Ministers** | |
| 15:00 - 16:30 | **GPAI Experts Side Event 9 (@ Room No. 16): Is there a way to democratize harmful content moderation in social media?** | |
| 17:00-18.00 | **Closing Ceremony (@Auditorium 1)** | |
